**Welcome to the 10th
Kustom Kulture Show!**

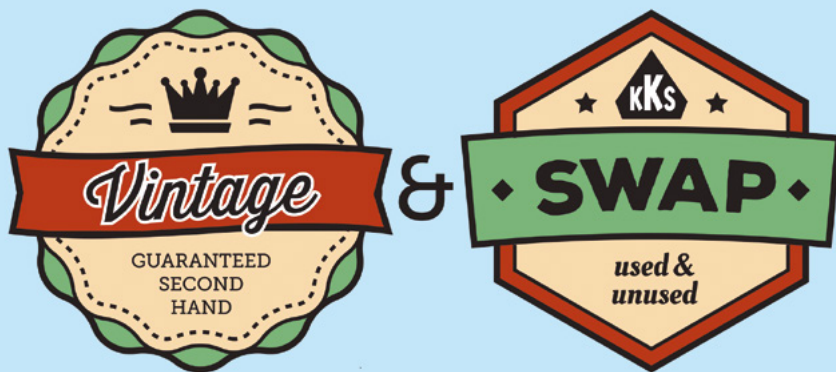

Anniversary party! Unbelievable, KKShow is organized for the tenth time already! During this time, the event has become a well-known, international and prestigious gathering of enthusiasts, which will be enjoyed by people from as far away as Australia. Thanks goes to all the artists, exhibitors, KKShow staff, partners and of course the visitors of the event. All of you together create that feeling that makes KKShow so unique. I believe that all of us have gained a lot of new friends, contacts and content in our lives during these events. Welcome to the Cable Factory, it's a party time!

Juhlavuosi! Uskomatonta, KKShow järjestetään jo kymmenettä kertaa! Tapahtuma on tänä aikana muodostunut tunnetuksi, kansainväliseksi ja arvostetuksi harrastajien kohtaamiseksi, johon tullaan viihtymään jopa Australiasta saakka. Kiitos kuuluu kaikille taiteilijoille, näyttelleasettajille, talkoolaisille, yhteistyökumppaneille ja tietenkin tapahtuman kävijöille. Te kaikki yhdessä luotte sen fiiliksen, joka tekee KKShow:sta ainutlaatuisen. Uskon, että me kaikki olemme saaneet paljon uusia ystäviä, kontakteja ja sisältöä elämäämme näiden tapahtumien aikana. Tervetuloa Kaapelille, nyt juhlitaan!

HI-SPEED ROCKETS

10th Anniversary
Kustom
Kulture

Hi-Speed Rockets is a fresh Finnish supergroup of roots music. New, yes, only in the sense that the debut album came out in the fall of 2023, even though the rocket engines started for the first time almost a decade ago. The line-up was established in 2020. All four musicians (Alex - vocals and guitar, Gona - guitar, Janne - bass and Hape - drums) have more than 30 years of playing experience. And not everyone has earned the spurs only in roots circles, because the band's soloist Alex Ojasti is also known as a founding member of the dance-pop band Aikakone. The old salt has been thirsting for him for a long time, however, and Alex has returned to the time before the invention of the Aikakone, to his first love, rockabilly. Ojasti shows his flexibility as a vocalist, when his voice bends from loud rocking to a delicate love song. On the album, guitarist Gona Lehtinen plays his six strings in several different styles, conjuring soundscapes in the style of Twin Peaks or with an electric rock sound, and continuing with strong jazz nuances. Hape and Janne, on the other hand, cast a solid concrete background kick with a drum set and a double bass.
